

CARGO POD

H125 Series (AS350/355) & Bell 429

ABOUT US

Oceania Aviation's Auckland-based NZCAA Part 148 manufacturing division, Airborne Systems, was established as a direct result of industry demand for specialist role equipment.

Our cargo pods have been specifically designed and manufactured to meet operator demand from various aviation industries including heliskiing, tourism, logging and various routine utility operations.

We have used composite carbon fibre material for strength, weight and function, offering superior protection and security with a two-way locking, enclosed cargo pod that safeguards its contents from the elements. With the ability to hold items that are up to 2.9 meters /110 inches long, our cargo pod offers a class leading maximum weight capacity of 120 kgs / 265 lbs.

Key Features

- Made From Strong & Lightweight Composite Carbon Fibre
- Aerodynamic Design Reducing Drag
- Pilot-Removeable Cargo Pod With Quick Release Pins
- Enclosed Pod Protecting Contents From The Elements
- Two-Way Locking System
- Fixed Provisions With No Impact On Performance

Certifications

- New Zealand: NZCAA STC.OAL.313, STC.OAL.006 & STC.OAL.017
- Canada: TC STC SH13-17 & SH13-23
- United States of America: FAA STC SR00104RD

Talk to us about what countries accept our role equipment.

SPECIFICATIONS

Approved Aircraft Models

Airbus H125 Series (AS350 B, BA, B1, B2, B3, D, AS355 E, F, F1, F2, N & NP)
Bell 429

Material

Composite Carbon Fibre

Cargo Pod Weight

30 kgs / 66.1 lbs

Fixed Provisions Weight

5 kgs / 11.02 lbs

Load Capacity

120 kgs / 265 lbs

Cargo Pod Maximum Length

298.7 cm / 117.6 in

Cargo Pod Maximum Width

550 cm / 216.5 in

Cargo Pod Maximum Height

620 cm / 244.1 in

Approved Configurations

Configuration	Fixed Provision	Cargo Pod
1	✓	
2	✓	✓

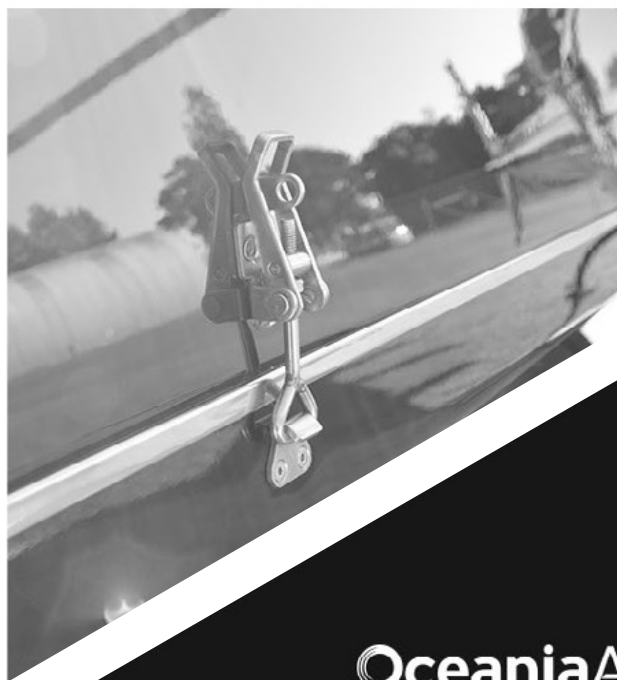

Flight Performance

Configuration 1 VNE is as per basic flight manual
Configuration 2 VNE of 130 knots

Installation

Fixed Provisions: Type Certified Engineer, 1-1.5 Hrs
Cargo Pod: Pilot or Other, 5-10 Mins
Left Hand Side (Right Hand Side coming 2018)
OEM Steps, Dart Curved Float or Full Length Steps
